

8Ft SEAMER

The MITUSA heavy duty 8Ft Seamer is **design and build to provide superior handling and maximize productivity.**

- Tube loaders reduce handling time, while also simplifying set-up.
- Available in welding processes such as SAW, GMAW and GTAW.
- Welding torch is mounted to the side beam carriage on a manual cross slide.
- Motorized carriage with variable speeds controls for straight and reliable seam weld.
- Power Supply mounted off of the floor.
- Turnkey, high precision units to produce the most superior results.

8Ft Seamer Features:

User Friendly Control
